

# CJLP40系列 series

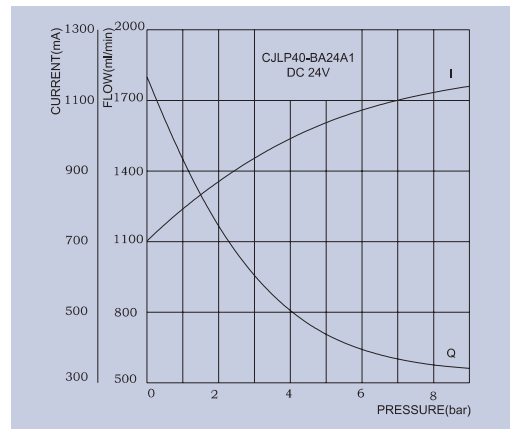

应用领域：高端醫療器械、  
咖啡機、  
飲水機、  
水迴圈設備、  
廚房衛浴產品、  
消毒滅菌等

Application: High-end medical equipment,  
Coffee maker,  
Water dispenser,  
Water circulating equipment,  
Kitchen and bathroom,  
Sterilization etc.

| 產品參數表 Parameters   |               |              |   |                                  |                     |                      |             |
|--|---------------|--------------|---|----------------------------------|---------------------|----------------------|-------------|
| 型號<br>Model  | 電壓<br>Voltage | 介質<br>Medium | 空載流量<br>Free flow                       | 空載電流<br>Current<br>under no load | 最大電流<br>Max current | 最大水壓<br>Max pressure | 噪音<br>Noise |
| CJLP40-BA24A1  | DC 24 V       | 水 water      | > 1500 ml/min                           | < 800 mA                         | < 1500 mA           | > 10 bar             | < 70 dB     |
| 其它參數 Others  |               |              |   |                                  |                     |                      |             |
| 壽命實驗 Life test   |               |              | 500 H (常溫下, 背壓10bar, 開3min, 停1min為一個循環) |                                  |                     |                      |             |
| 使用環境 Working environment   |               |              | 0~50°C, 75%RH                           |                                  |                     |                      |             |
| 可根據客戶具體要求進行定制。Customization based on specific customer requirements available. |               |              |   |                                  |                     |                      |             |
